

ZEWA FEEDS[®]

Ornamental Fish Range

INSECT-PROTEIN FISH FOOD · MADE IN INDIA

Functional. Research-backed. Sustainable aqua nutrition.

Zewa Feed's unique insect protein-based formulations are designed for the specific needs of ornamental fish offering multiple benefits:

Optimal Nutrition:

Our feeds are rich in essential amino acids and antioxidants, promoting vibrant colors and stronger immunity for enhanced overall health.

Enhanced Digestibility:

Scientifically proven to be more digestible than conventional protein sources in other feeds, insect protein ensures increased bioavailability, allowing pets to absorb and utilize nutrients more efficiently for better health and growth.

Zewa's Commitment:

We offer species-specific, research-backed, environmentally responsible nutrition solutions for ornamental fish. By choosing our feeds, you're supporting a carbon-negative process that reduces resource use and contributes to global sustainability and food security efforts.

DRIED BSF LARVAE

The Ultimate Natural Protein-Rich Treats for Fish Health

Experience the power of natural diet with ZEWA's Original, Microwave-Dried Black Soldier Fly Larvae, a top-tier protein source for your fish, preserving maximum nutrient retention. Developed in collaboration with ICAR, Central Institute of Fisheries Technology, our BSF larvae deliver essential nutrients and natural health benefits that fish need to thrive.

Key Features:

- ✧ **Unmatched Protein Quality:** High-quality protein for nutrient-dense fish feed.
- ✧ **Healthy Skin, Fin & Scale Color:** Enhances vibrancy with beneficial fats and amino acids.
- ✧ **Accelerated Growth Rate:** Adequate protein for faster, healthier growth.
- ✧ **Enhanced Weight Gain:** Fortified with essential vitamins and minerals for vitality.

AVAILABLE SIZES

Size	20 g	45 g	1 kg
Pellet Size	0.6–0.8mm	0.6–0.8mm	0.6–0.8mm

SUITABLE FOR:

Suitable for all types of bettas (Betta splendens), including veiltail, crowntail, and halfmoon varieties.

MICRO PELLETS

Premium High Protein Community Feed

ZEWA Micro Pellets are designed to meet the nutritional needs of a variety of fish, offering a high-protein formula that supports growth and vitality. With premium insect protein, added fiber for better digestion, and selected antioxidants to boost immunity, these pellets ensure your fish stay healthy and active.

Key Features:

- **Premium Insect Protein:** Supports growth and vitality.
- **Added Fiber:** Enhances digestion and gut health.
- **Optimized Antioxidants:** Strengthens immunity and overall well-being.
- **High Protein Formula:** Perfect for active, healthy fish.
- **Suitable for Community Tanks:** Ideal for a variety of fish species.

Crude Protein (min) : 42%

Phosphorus (min) : 1.2%

AVAILABLE SIZES

Size	45 g	200 g	1 kg
Pellet Size	0.5 - 1 mm	0.5 - 1 mm	0.5 - 1 mm

SUITABLE FOR:

Ideal for small community fish(various species), such as tetras, barbs, and rasboras.

SHRIMP GRAZERS

Mineral-Rich Slow-Sinking Granules for Ornamental Freshwater Shrimps

Zewa Feeds Shrimp Grazers (S5) are species-specific 1.2–2 mm slow-sinking granules built around freshwater shrimp biology. Dicalcium carbonate supports successful moulting, while insect protein, spirulina, and moringa promote shell strength, colour, and long-term vitality

Key Features:

- ✧ Dicalcium carbonate supports healthy moulting cycles
- ✧ 2.5% calcium and 2% phosphorus for shell strength
- ✧ 1.2–2 mm granule sinks for natural substrate grazing
- ✧ Holds structure 20+ minutes without clouding water
- ✧ Spirulina and moringa boost colour and immunity
- ✧ Safe for planted aquariums and nano shrimp tanks

Crude Protein (min) : 26%

Phosphorus (min) : 2%

Crude Fat (min) : 7%

Ash (max) : 15%

Crude Fiber (max) : 10%

Moisture (max) : <5%

Calcium (min) : 2.5%

Subject to change

AVAILABLE SIZES

Size	20 g
Pellet Size	1.2–2mm

SUITABLE FOR:

Neocaridina (Cherry, Blue Velvet, Snowball), Caridina (Crystal Red, Crystal Black)

CICHLID BITES

Specialized Nutrition for Cichlid Varieties

ZEWA's Cichlid Bites are crafted exclusively for cichlids, providing essential nutrients for robust health and vitality. This high-protein formula, enriched with insect protein, spirulina, and fiber, supports immunity, digestion, and overall well-being.

Key Features:

- ✧ **High-Quality Insect Protein:** Fuels growth and muscle development.
- ✧ **Immunity-Boosting Spirulina:** Strengthens immune response.
- ✧ **Added Fiber:** Improves digestion and gut health.
- ✧ **Color-Enhancing Nutrients:** Supports vibrant, natural coloration.
- ✧ **Tailored for Cichlids:** Meets the unique dietary needs of cichlid varieties.

Crude Protein (min) : 44%

Phosphorus (min) : 1.2%

Crude Fat (min) : 11%

Ash (max) : 10%

Crude Fiber (max) : 5%

Moisture (max) : <5%

Calcium (min) : 1.8%

Subject to change

AVAILABLE SIZES

Size	45 g - C4	1 kg - C4	500 g - C5	1 kg - C5
Pellet Size	0.8–1.4mm	0.8–1.4mm	1.2–2 mm	1.2–2 mm

SUITABLE FOR:

Formulated for a wide range of cichlid species, including African and South American cichlids.

PLECO BITES

Exclusively Formulated for Pleco Fish

Give your plecos and bottom feeders the nutrition they deserve with ZEWA Pleco Bites, specially crafted to support digestive health and natural algae-grazing behavior. Each sinking pellet is enriched with spirulina, moringa, and black soldier fly meal that keeps your herbivorous fish thriving from the tank floor up.

Key Features:

- ✧ **Supports Digestive Health:** High fiber content prevents bloating and enhances gut health.
- ✧ **Rich in Spirulina & Moringa:** Boosts immunity and enhances natural coloration.
- ✧ **Algae-Eater Friendly:** Formulated for plecos and other herbivorous bottom dwellers.
- ✧ **Sinking Pellet Formula:** Softens underwater for easy consumption without clouding water.
- ✧ **Sustainable & Protein-Rich:** Features BSF meal for essential amino acids and minerals.

Crude Protein (min) : 36%

Phosphorus (min) : 1%

Crude Fat (min) : 12%

Ash (max) : 12%

Crude Fiber (max) : 15%

Moisture (max) : <5%

Calcium (min) : 1.5%

Subject to change

AVAILABLE SIZES

Size	45 g	500 g	1 kg
Pellet Size	1.2–2mm	1.2–2mm	1.2–2mm

SUITABLE FOR:

Ideal for herbivorous bottom dwellers, such as plecos, catfish, and loaches.

GOLDFISH BITES

Tailored Nutrition for All Goldfish Varieties

Zewa Feeds Goldfish Bites (K4) is a complete daily 3 mm slow-sinking pellet for all goldfish. Insect protein pairs with krill meal for natural colour, spirulina for immunity, and prebiotics for the stomachless goldfish digestive system reducing bloating and swim bladder risk.

Key Features:

- ✧ 28% protein — optimised for stomachless goldfish digestion
- ✧ 88% protein digestibility — less waste, cleaner water
- ✧ Krill meal with natural astaxanthin for vivid colour
- ✧ 3 mm slow-sinking pellet prevents air ingestion
- ✧ Prebiotics and multi-enzymes reduce bloating risk

Crude Protein (min) : 28%	Phosphorus (min) : 1%
Crude Fat (min) : 3%	Ash (max) : 9%
Crude Fiber (max) : 7%	Moisture (max) : <5%
Calcium (min) : 1.5%	Subject to change

AVAILABLE SIZES

Size	45 g	140 g
Pellet Size	3 mm	3 mm

SUITABLE FOR:

Fancy Goldfish — Oranda, Ryukin, Lionhead, Ranchu, Telescope Eye, Pearlscale

MONSTER STICKS

Floating Carnivore Sticks for Arowana, Oscar & Large Predatory Fish

Zewa Feeds Monster Sticks (A10) are 4x10 mm floating carnivore sticks with 36% insect protein a complete daily feed for Arowana, Oscar, Flowerhorn, and large predatory fish. Natural astaxanthin from krill enhances colour while L-tryptophan supports calmer behaviour.

Key Features:

- ✧ 36% insect protein balanced for daily predator feeding
- ✧ 4 x 10 mm floating stick for surface-feeding Arowana
- ✧ Krill, astaxanthin and spirulina colour system
- ✧ L-tryptophan calming support for territorial species
- ✧ Clean label — no synthetic amino acids or artificial colours
- ✧ Multi-enzyme blend supports digestion in large fish

Crude Protein (min) : 36%

Phosphorus (min) : 1%

Crude Fat (min) : 11%

Ash (max) : 9%

Crude Fiber (max) : 6%

Moisture (max) : <5%

Calcium (min) : 2%

Subject to change

AVAILABLE SIZES

Size	140 g
Sticks Size	4 x 10mm

SUITABLE FOR:

Arowana (Silver, Asian, Jardini), Oscar, Flowerhorn, Large Cichlids, Parrot Fish, Pacu, Gar, Datnoid, Peacock Bass

KOI BITES

Premium Floating Pellets for Growth, Colour & Longevity in Koi Carp

Zewa Feeds Koi Bites (K7) are premium 4 mm floating pellets with 32% insect protein, krill meal, and proprietary probiotics for Koi Carp. Natural astaxanthin, spirulina, and paprika essence create a multi-pigment colour system for vivid koi colouration.

Key Features:

- ✧ Krill meal with natural astaxanthin for vivid koi colour
- ✧ Proprietary probiotics for koi gut health across seasons
- ✧ 32% insect protein for steady growth and body condition
- ✧ 4 mm floating pellet for active surface feeding in ponds
- ✧ Multi-pigment system — spirulina, paprika and krill

Crude Protein (min) :	32%	Phosphorus (min) :	0.5%
Crude Fat (min) :	9%	Ash (max) :	8%
Crude Fiber (max) :	6%	Moisture (max) :	<5%
Calcium (min) :	1%	Subject to change	

AVAILABLE SIZES

Size	500 g	1 Kg
Pellet Size	4 mm	4 mm

SUITABLE FOR:

Koi Carp (*Cyprinus rubrofasciatus*) — Kohaku, Sanke, Showa, Butterfly Koi, Ogon, Tancho

HATCH'E™

ZEWA Feeds' Specialized Hatchery Nutrition

HATCH'E by ZEWA Feeds is formulated to meet the delicate needs of ornamental fish larvae, providing superior nutrition that promotes rapid growth, vibrant coloration, and strong immunity. Powered by advanced insect protein and enriched with bio active compounds and spirulina, this feed ensures bright pigmentation and resilient health for young fish. ZEWA Feeds offers a sustainable, scientifically proven solution for early-stage fish development, helping your fish thrive from the beginning

Key Features:

- **Insect Protein Powerhouse:** Delivers essential amino acids for healthy larval growth.
- **Vitamin & Mineral Fortification:** Strengthens immunity and boosts overall health.
- **Tailored Particle Size:** Perfectly sized for fish larvae of varying stages.
- **Omega Enrichment:** Supports brain and eye development.
- **Balanced Nutrients:** Optimal protein and fat for digestibility and gut health.

Crude Protein (min) : 48%

Phosphorus (min) : 1.6%

Crude Fat (min) : 13%

Ash (max) : 12%

Crude Fiber (max) : 4%

Moisture (max) : <5%

Calcium (min) : 2.5%

Subject to change

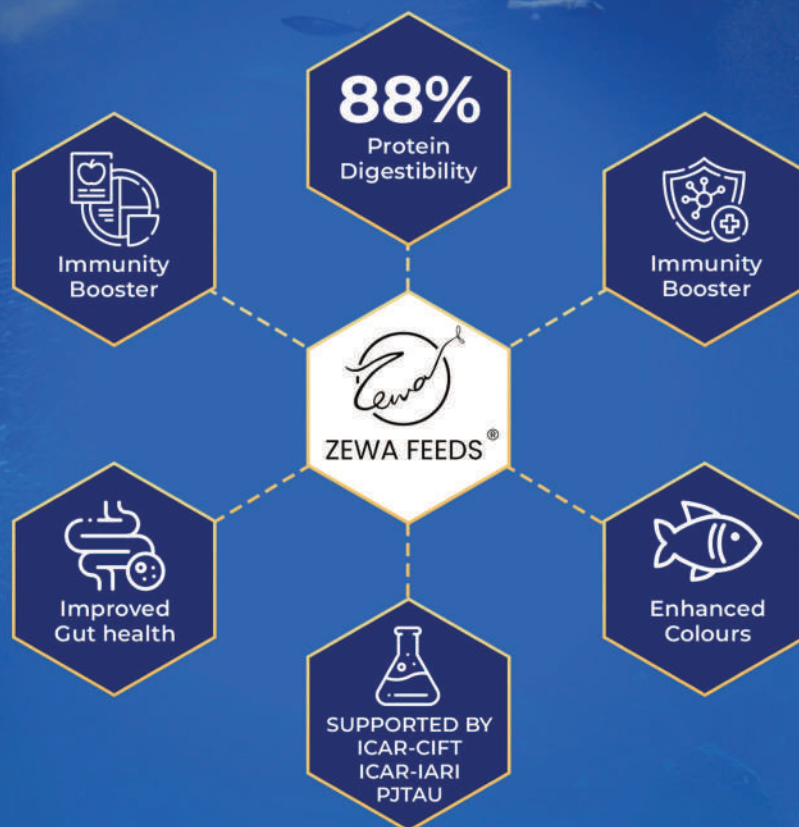

AVAILABLE SIZES

Size	H1 - 1 Kg	H2 - 1 Kg	H3 - 1 Kg
Pellet Size	0.17–0.3 mm	0.3–0.5 mm	0.5–0.7 mm
MRP	₹1,430	₹1,430	₹1,430

SUITABLE FOR:

Fish larvae and juvenile fish of all sizes, with tailored pellet sizes for optimal consumption (Small to large ornamental fish, including Tetras, Cichlids, Arowanas, etc.)

Pioneering Advanced Nutrition with Support from India's Top Agricultural Institutes

Supported by the **ICAR-Central Institute of Fisheries Technology** in Cochin, we receive incubation and research assistance to advance high-quality protein ingredients for feed formulations.

With incubation support from **Ag-Hub at Professor Jayashankar Telangana Agricultural University** in Telangana, we are advancing the implementation of insect farming technology.

With incubation and seed support from **Pusa Krishi, ICAR-Indian Agricultural Research Institute** in Delhi, we are developing enhanced breeder feed specifically tailored for fish hatcheries.

ZEWA FEEDS®

" At Zewa, we leverage unique insect protein formulations to revolutionize the animal feed industry to make them functional, proven and sustainable. Our carefully crafted aqua feeds are tailored to meet the needs of ornamental aquaculture and Hatch'E is a product line dedicated to improve the yield of ornamental fish hatcheries. "
